→ Air Freight

China → Tawau · via TWU air / Tawau sea · clearance by Royal Malaysian Customs Department (JKDM)

Cargo handling on the China-Tawau lane.

Freight from China into Tawau clears through TWU air / Tawau sea. Tawau is south-east Sabah port near the Indonesian border, and allow +1 day for the inland leg on top of clearance.

On the destination side, Royal Malaysian Customs Department (JKDM) handles clearance; budget 2-4 days of dwell before the cargo is released.

Duty, tax and clearance into Tawau

Imports into Malaysia are cleared by Royal Malaysian Customs Department (JKDM). The headline position is: Sales tax 5-10% plus 10% low-value-goods tax on online orders under MYR 500; duty 0-30%, largely 0% under ACFTA. The de-minimis threshold is MYR

500 (low-value goods sold online are taxed regardless).

Conformity is the part most first-time importers underestimate: SIRIM certification and MCMC label for electrical and radio products; halal certification for food ingredients. Getting this wrong is expensive because it usually cannot be fixed after the cargo has landed.

Restrictions and known friction points for Malaysia: Electrical goods without a SIRIM label are routinely detained. Alcohol, e-cigarettes and vape liquid are restricted. Direct-to-consumer parcels are subject to the low-value goods tax collected at the point of sale.

What the routing looks like in practice

Peninsular Malaysia is served through Port Klang and Tanjung Pelepas with very frequent South China sailings. East Malaysia (Sarawak and Sabah) is a separate customs territory in practice — cargo transships at Klang or Singapore and adds 5–8 days plus a second clearance step, so quote Kuching and Kota Kinabalu separately.

Air gateways used	KUL (Kuala Lumpur), PEN (Penang), BKI (Kota Kinabalu)
Air transit, China to gateway	3–5 business days
Gateway serving Tawau	TWU air / Tawau sea
Inland leg to Tawau	+1 day from the gateway
Typical clearance / dwell	2–4 days
Peak season to plan around	Sep–Nov

Handling on the TWU air / Tawau sea routing serving Tawau.

Before you book: Tawau checklist

- Confirm the consignee in Tawau can act as importer of record — Royal Malaysian Customs Department (JKDM) will not release cargo to an unregistered party.
- Photograph carton markings and seal numbers before departure — it makes any claim far easier to settle.
- Get the conformity paperwork moving early: SIRIM certification and MCMC label for electrical and radio products; halal certification for food ingredients.
- Book earlier than the transit time suggests during Sep–Nov, when space on this lane tightens.
- Plan around the China-side windows too: Chinese New Year and Golden Week both compress capacity on the Malaysia lane.
- Check the de-minimis position (MYR 500 (low-value goods sold online are taxed regardless)) against your invoice value before you decide how to split the shipment.

Frequently asked questions

How long does shipping from China to Tawau take?

China to the Malaysia gateway is 3–5 business days. On top of that, allow 2–4 days of clearance with Royal Malaysian Customs Department (JKDM) and a +1 day inland leg to Tawau.

What duty and tax will I pay importing into Tawau?

Royal Malaysian Customs Department (JKDM) applies: Sales tax 5–10% plus 10% low-value-goods tax on online orders under MYR 500; duty 0–30%, largely 0% under ACFTA. The de-minimis position is MYR 500 (low-value goods sold online are taxed regardless).

Under a DDP arrangement these are pre-paid, so nothing is collected on arrival in Tawau.

Which port or airport does cargo for Tawau clear through?

Cargo for Tawau is routed via TWU air / Tawau sea. Sea gateways for Malaysia are Port Klang, Tanjung Pelepas, Penang; air gateways are KUL (Kuala Lumpur), PEN (Penang), BKL (Kota Kinabalu). We pick whichever gives the shortest total door time for your address.

Can you ship batteries or sensitive cargo to Tawau?

Yes. Battery cargo by air follows IATA PI 965-970 depending on how the cells are packed, and moves on certified channels via KUL (Kuala Lumpur), PEN (Penang), BKL (Kota Kinabalu). Surcharges apply and the declaration has to be made before booking.

Can you deliver door-to-door in Tawau?

Yes. Delivery to a Tawau address is quoted as one figure covering freight, duty and tax owed to Royal Malaysian Customs Department (JKDM), and the +1 day inland leg. Confirm whether your consignee wants the goods at a warehouse, a marketplace fulfilment centre or a shop front, because the last-mile requirement differs.

Is sea freight cheaper than air freight into Tawau?

Per kilo, yes — usually by a wide margin. The trade-off is time: 5-9 calendar days by sea versus 3-5 business days by air to the Malaysia gateway, before clearance and the +1 day inland leg. The crossover point is normally somewhere between 100 and 300 kg depending on the density of your cargo.
