Trade Terms Explained — Who Pays for What

The rate above is quoted on one specific trade term. Change the term and you change how much of the journey to Brazil is already inside the price. The table below maps the eleven common Incoterms® against the twelve cost stages of a door-to-door shipment, so you can see exactly where our responsibility ends and yours begins.

- **Seller** — Cost and arrangement sit with the seller / shipper.
- **Buyer** — Cost and arrangement sit with the buyer / consignee.
- **Negotiable** — Not fixed by the rule — agree it in the contract.

Responsibility for each shipment stage under each Incoterms rule

EXW Ex Works

Buyer takes over at the seller's door and carries every cost from there. Lowest quoted price, highest buyer workload.

FCA Free Carrier

Seller clears the goods for export and hands them to the carrier the buyer nominated.

FAS Free Alongside Ship

Sea and inland waterway only. Seller delivers alongside the vessel; loading is on the buyer.

FOB Free On Board

Sea and inland waterway only. Risk passes once the goods are on board. The most common buying term.

CFR Cost and Freight

Seller pays the main carriage but carries no insurance obligation; risk still passes on loading.

CIF Cost, Insurance and Freight

As CFR, plus the seller must buy and pay for cargo insurance (minimum cover unless you agree more).

CPT Carriage Paid To

Any mode. Seller pays carriage through to the named destination; insurance is not obligatory.

CIP Carriage and Insurance Paid

As CPT, plus the seller must insure the cargo through to the named destination.

DAT Delivered At Terminal (DPU)

Seller delivers unloaded at the named terminal. Renamed DPU (Delivered at Place Unloaded) in Incoterms® 2020.

DAP Delivered At Place

Seller delivers to your address ready for unloading; import clearance and duty stay with the buyer.

DDP Delivered Duty Paid

Seller carries everything through to your door, duty and tax included. Highest quoted price, least buyer workload.

Two things worth flagging. Under CIF and CIP the seller is obliged to buy cargo insurance and pay the premium; under every other term insurance is optional, and we recommend buyers arrange their own cover so a loss or damage in transit is recoverable. And this table is a working summary for planning purposes — the binding definitions are the ones published by the International Chamber of Commerce in the Incoterms® rules, so confirm the exact term wording in your sales contract before you ship.

Price Trend — Brazil

Historical freight rates from China to Brazil for 100 KG shipments. Data sourced from live carrier price feeds.

China to Brazil — Shipping Reference Data

Verified shipping reference data for the China → Brazil lane:

Main sea gateways	Santos, Paranaguá, Itajaí
Destination customs authority	Receita Federal (Brazilian Federal Revenue)
De-minimis / duty-free threshold	USD 50 (between individuals only)
Import tax & duty regime	Import duty 10–35% + IPI + ICMS + PIS/COFINS (stacked)
Local currency	BRL
Typical port/airport dwell time	7–15 days
Peak / busy season	Sep–Nov
Conformity & certification	ANATEL homologation for telecom/radio devices
Main air gateways	GRU (São Paulo), VCP (Campinas), GIG (Rio)

Thresholds and duty bands are buyer-planning references, not formal customs rulings — confirm the exact HS-code rate for your goods before shipping.

Mid-Volume Commercial

Commercial Freight — Mid Volume

At 100 KG, you're in the commercial freight category — large enough for competitive rates but still within the range where air freight often beats sea freight on cost per delivery cycle. This weight is common for electronics, clothing, and general merchandise restocking shipments going to Brazil.

- Air freight channels offer volume discounts from 100 KG
- Sea freight LCL (shared container) becomes viable above 150 KG
- Most channels require volumetric weight check ($L \times W \times H \div 6000$)
- Rail freight viable for European destinations at this weight

Free 3D Loading Tools

Shipping to Brazil by air or sea? Plan cartons and container loading in 3D before requesting a quote.

Which Shipping Method is Best for 100 KG?

Recommended

Air Freight

Transit: 5-10 business days

Best at: Under 300 KG, time-sensitive cargo

Recommended

Recommended

Sea Freight

Transit: 25-45 calendar days

Best at: Over 100 KG, non-urgent cargo

Recommended

Rail Freight

Transit: 18-28 calendar days

Best at: Europe destinations over 50 KG

Europe only

Transit Times — China to Brazil

Method	Transit Time	Notes
Air Freight DDP	5-10 business days	From China warehouse to Brazil door
Sea Freight LCL	30-50 calendar days	Shared container to Brazil port + delivery
Express Courier	3-7 business days	DHL/FedEx/UPS door-to-door, high cost for this weight

What Affects the Shipping Cost to Brazil?

- Actual vs. volumetric weight — carriers charge whichever is higher ($L \times W \times H \div 6000$ for air)
- Cargo type surcharge — batteries, liquids, and branded goods carry additional fees
- Peak season surcharges — Chinese New Year (Jan/Feb) and Golden Week (Oct) add 15–30%
- Destination area — Brazil may have remote area surcharges for certain postal codes
- Declared value — customs duties are calculated on CIF value

Customs & Documentation for Brazil

- De minimis threshold — shipments below local tax threshold may clear duty-free
- Required documents: commercial invoice, packing list, and accurate HS codes
- DDP service includes all import duties — you pay one total price with no surprises
- Battery and liquid goods require additional certification documents
- FDA Prior Notice required for food, supplements, and certain health products
- FCC certification required for electronic devices with radio frequency

Frequently Asked Questions

How much does it cost to ship from China to Brazil?

Current rates for shipping from China to Brazil start at USD 7,600.00/KG via Sea FCL Port-to-Port (Spot). For 100 KG, the estimated total is approximately USD 7,600, duty included. Final landed cost depends on the Import duty 10–35% + IPI + ICMS + PIS/COFINS (stacked) applied by Receita Federal (Brazilian Federal Revenue).

What duties and taxes apply when importing into Brazil?

Imports into Brazil are assessed by Receita Federal (Brazilian Federal Revenue). The applicable regime is: Import duty 10–35% + IPI + ICMS + PIS/COFINS (stacked). The duty-free / de-minimis position is USD 50 (between individuals only). Under our DDP service these charges are pre-paid and included in the per-KG price, so there is nothing to settle on arrival.

How is chargeable weight calculated for Brazil shipments?

We compare actual gross weight against volumetric weight ($L \times W \times H \div 6000$ for air) and charge whichever is greater, rounded up to the next kilogram. For 100 KG this matters most when cargo is light but bulky — consolidating cartons can drop you into a cheaper bracket.

When is the busy season for shipping to Brazil?

Capacity to Brazil tightens around Sep–Nov, on top of the China-side surcharge windows of Chinese New Year (Jan/Feb) and Golden Week (early Oct). Booking 1–2 weeks earlier during these windows protects both space and rate.

What documents are required for customs clearance in Brazil?

Receita Federal (Brazilian Federal Revenue) typically requires: (1) commercial invoice with HS codes and declared value; (2) packing list with weights and dimensions; (3) bill of lading or air waybill; (4) certificate of origin (may lower duty); and (5) any

product-specific certification (ANATEL homologation for telecom/radio devices). Under DDP we prepare and file these for you.

Can I track my shipment from China to Brazil?

Yes. Air shipments to Brazil get an air waybill (AWB) trackable within 24 hours of departure; sea shipments are tracked by bill-of-lading through the carrier portal. We push status at key milestones: departure, arrival at the gateway, clearance by Receita Federal (Brazilian Federal Revenue), and final delivery.

Which ports and airports handle China shipments to Brazil?

Sea freight to Brazil typically routes through Santos, Paranaguá, Itajaí, while air freight clears via GRU (São Paulo), VCP (Campinas), GIG (Rio). We pick the gateway with the best onward delivery time to your final address and price it into the DDP rate.

What is DDP shipping to Brazil and what does it include?

DDP (Delivered Duty Paid) to Brazil means one all-inclusive price covering freight, the duty/tax due to Receita Federal (Brazilian Federal Revenue), and last-mile delivery to your door. The USD 50 (between individuals only) de-minimis position is handled for you, and there are no surprise charges at destination.

Inland Delivery Coverage — Brazil

We deliver beyond the arrival gateway. Each city below has its own destination guide covering the gateway it clears through, typical inland transit time and the local customs picture.

Note — these are reference guides, not quotes. The city pages describe routing, gateways and clearance for each destination. They do not carry rate tables. For pricing to any city listed here, use the rate table on this page or ask us for a quote.
