 Cargo Weight (KG)

☐ Enter the actual gross weight of your shipment in kilograms. If you're unsure, fill in the volume fields below and we'll calculate it for you.

☐ Or enter volume (cm) — volumetric weight ÷ 6000

× ×

Non-integers rounded up. Larger of actual vs volumetric is used.

☐ Number of Boxes

Total chargeable weight = weight per box × number of boxes.

⚠ When you have not filled in the volume information, our prices may be inaccurate.

Trade Terms Explained — Who Pays for What

The rate above is quoted on one specific trade term. Change the term and you change how much of the journey to Japan is already inside the price. The table below maps the eleven common Incoterms® against the twelve cost stages of a door-to-door shipment, so you can see exactly where our responsibility ends and yours begins.

- **Seller** — Cost and arrangement sit with the seller / shipper.
- **Buyer** — Cost and arrangement sit with the buyer / consignee.
- **Negotiable** — Not fixed by the rule — agree it in the contract.

Responsibility for each shipment stage under each Incoterms rule

EXW Ex Works

Buyer takes over at the seller's door and carries every cost from there. Lowest quoted price, highest buyer workload.

FCA Free Carrier

Seller clears the goods for export and hands them to the carrier the buyer nominated.

FAS Free Alongside Ship

Sea and inland waterway only. Seller delivers alongside the vessel; loading is on the buyer.

FOB Free On Board

Sea and inland waterway only. Risk passes once the goods are on board. The most common buying term.

CFR Cost and Freight

Seller pays the main carriage but carries no insurance obligation; risk still passes on loading.

CIF Cost, Insurance and Freight

As CFR, plus the seller must buy and pay for cargo insurance (minimum cover unless you agree more).

CPT Carriage Paid To

Any mode. Seller pays carriage through to the named destination; insurance is not obligatory.

CIP Carriage and Insurance Paid

As CPT, plus the seller must insure the cargo through to the named destination.

DAT Delivered At Terminal (DPU)

Seller delivers unloaded at the named terminal. Renamed DPU (Delivered at Place Unloaded) in Incoterms® 2020.

DAP Delivered At Place

Seller delivers to your address ready for unloading; import clearance and duty stay with the buyer.

DDP Delivered Duty Paid

Seller carries everything through to your door, duty and tax included. Highest quoted price, least buyer workload.

Two things worth flagging. Under CIF and CIP the seller is obliged to buy cargo insurance and pay the premium; under every other term insurance is optional, and we recommend buyers arrange their own cover so a loss or damage in transit is recoverable. And this table is a working summary for planning purposes — the binding definitions are the ones published by the International Chamber of Commerce in the Incoterms® rules, so confirm the exact term wording in your sales contract before you ship.

Price Trend — Japan

Historical freight rates from China to Japan for 300 KG shipments. Data sourced from live carrier price feeds.

China to Japan — Shipping Reference Data

Reference figures that shape cost and transit on the China-Japan route:

Main sea gateways	the main commercial seaport
Destination customs authority	the national customs authority
De-minimis / duty-free threshold	varies by country
Import tax & duty regime	Import duty and local tax apply; rates vary by commodity
Local currency	USD
Typical port/airport dwell time	4-10 days
Peak / busy season	Sep-Nov
Conformity & certification	Confirm local conformity and labelling rules per HS code
Main air gateways	the primary international airport

Thresholds and duty bands are buyer-planning references, not formal customs rulings — confirm the exact HS-code rate for your goods before shipping.

Bulk Freight

Bulk Commercial Freight

Shipping 300 KG from China to Japan is firmly in bulk commercial freight territory. At this volume, sea freight (FCL or LCL) and air charter rates become significantly more competitive. Most importers at this weight range use scheduled sea freight for regular orders and air freight only for urgent replenishments.

- Sea freight FCL (full container) may be cost-effective above 5 CBM
- LCL sea freight rates are quoted per CBM at this range
- Expect customs examination — prepare full documentation
- Insurance recommended for shipments above USD 5,000 value

Which Shipping Method is Best for 300 KG?

Air Freight

Transit: 5-10 business days

Best at: Under 300 KG, time-sensitive cargo

Viable

Recommended

Sea Freight

Transit: 25-45 calendar days

Best at: Over 100 KG, non-urgent cargo

Recommended

Rail Freight

Transit: 18-28 calendar days

Best at: Europe destinations over 50 KG

Europe only

Transit Times — China to Japan

Method	Transit Time	Notes
Sea Freight LCL	30-50 calendar days	Shared container to Japan port + delivery
Sea Freight FCL	28-45 calendar days	Full container to Japan port + delivery
Express Courier	3-7 business days	DHL/FedEx/UPS door-to-door, high cost for this weight

What Affects the Shipping Cost to Japan?

- Actual vs. volumetric weight — carriers charge whichever is higher ($L \times W \times H \div 6000$ for air)

- Cargo type surcharge — batteries, liquids, and branded goods carry additional fees
- Peak season surcharges — Chinese New Year (Jan/Feb) and Golden Week (Oct) add 15–30%
- Destination area — Japan may have remote area surcharges for certain postal codes
- Declared value — customs duties are calculated on CIF value

Customs & Documentation for Japan

- De minimis threshold — shipments below local tax threshold may clear duty-free
- Required documents: commercial invoice, packing list, and accurate HS codes
- DDP service includes all import duties — you pay one total price with no surprises
- Battery and liquid goods require additional certification documents

Frequently Asked Questions

How much does it cost to ship from China to Japan?

Current rates for shipping from China to Japan start at USD 265.00/KG via Sea FCL Port-to-Port (Spot). For 300 KG, the estimated total is approximately USD 265, duty included. Final landed cost depends on the Import duty and local tax apply; rates vary by commodity applied by the national customs authority.

What duties and taxes apply when importing into Japan?

Imports into Japan are assessed by the national customs authority. The applicable regime is: Import duty and local tax apply; rates vary by commodity. The duty-free / de-minimis position is varies by country. Under our DDP service these charges are pre-paid and included in the per-KG price, so there is nothing to settle on arrival.

Should I use FCL or LCL sea freight for 300 KG to Japan?

For 300 KG to Japan, LCL through the main commercial seaport is usually right unless cargo exceeds ~5–6 CBM or ships regularly. FCL becomes economical above roughly 15,000–18,000 KG and removes commingling risk during clearance by the national customs authority.

When is the busy season for shipping to Japan?

Capacity to Japan tightens around Sep–Nov, on top of the China-side surcharge windows of Chinese New Year (Jan/Feb) and Golden Week (early Oct). Booking 1–2 weeks earlier during these windows protects both space and rate.

What documents are required for customs clearance in Japan?

the national customs authority typically requires: (1) commercial invoice with HS codes and declared value; (2) packing list with weights and dimensions; (3) bill of lading or air waybill; (4) certificate of origin (may lower duty); and (5) any product-specific certification (Confirm local conformity and labelling rules per HS code). Under DDP we prepare and file these for you.

Which ports and airports handle China shipments to Japan?

Sea freight to Japan typically routes through the main commercial seaport, while air freight clears via the primary international airport. We pick the gateway with the best onward delivery time to your final address and price it into the DDP rate.

What is DDP shipping to Japan and what does it include?

DDP (Delivered Duty Paid) to Japan means one all-inclusive price covering freight, the duty/tax due to the national customs authority, and last-mile delivery to your door. The varies by country de-minimis position is handled for you, and there are no surprise charges at destination.

What is the minimum shipment size for shipping to Japan?

Minimums to Japan vary by channel: air DDP from about 21 KG (some from 12 KG), sea LCL from roughly 1 CBM, and express courier for single parcels. Below 21 KG, express is usually the most economical way into Japan.

Inland Delivery Coverage — Japan

We deliver beyond the arrival gateway. Each city below has its own destination guide covering the gateway it clears through, typical inland transit time and the local customs picture.

Note — these are reference guides, not quotes. The city pages describe routing, gateways and clearance for each destination. They do not carry rate tables. For pricing to any city listed here, use the rate table on this page or ask us for a quote.
