✎ Cargo Weight (KG)

☐ Enter the actual gross weight of your shipment in kilograms. If you're unsure, fill in the volume fields below and we'll calculate it for you.

☐ Or enter volume (cm) — volumetric weight ÷ 6000

× ×

Non-integers rounded up. Larger of actual vs volumetric is used.

☐ Number of Boxes

Total chargeable weight = weight per box × number of boxes.

⚠ When you have not filled in the volume information, our prices may be inaccurate.

Trade Terms Explained — Who Pays for What

The rate above is quoted on one specific trade term. Change the term and you change how much of the journey to Malaysia is already inside the price. The table below maps the eleven common Incoterms® against the twelve cost stages of a door-to-door shipment, so you can see exactly where our responsibility ends and yours begins.

- **Seller** — Cost and arrangement sit with the seller / shipper.
- **Buyer** — Cost and arrangement sit with the buyer / consignee.
- **Negotiable** — Not fixed by the rule — agree it in the contract.

Responsibility for each shipment stage under each Incoterms rule

Term	1 Loading on truck	2 Export customs declaration	3 Carriage to port of export	4 Unloading at port of export	5 Loading on vessel / aircraft	6 Main carriage	7 Cargo insurance	8 Unloading at port of import	9 Loading on truck at import	10 Carriage to destination

EXW Ex Works

Buyer takes over at the seller's door and carries every cost from there. Lowest quoted price, highest buyer workload.

FCA Free Carrier

Seller clears the goods for export and hands them to the carrier the buyer nominated.

FAS Free Alongside Ship

Sea and inland waterway only. Seller delivers alongside the vessel; loading is on the buyer.

FOB Free On Board

Sea and inland waterway only. Risk passes once the goods are on board. The most common buying term.

CFR Cost and Freight

Seller pays the main carriage but carries no insurance obligation; risk still passes on loading.

CIF Cost, Insurance and Freight

As CFR, plus the seller must buy and pay for cargo insurance (minimum cover unless you agree more).

CPT Carriage Paid To

Any mode. Seller pays carriage through to the named destination; insurance is not obligatory.

CIP Carriage and Insurance Paid

As CPT, plus the seller must insure the cargo through to the named destination.

DAT Delivered At Terminal (DPU)

Seller delivers unloaded at the named terminal. Renamed DPU (Delivered at Place Unloaded) in Incoterms® 2020.

DAP Delivered At Place

Seller delivers to your address ready for unloading; import clearance and duty stay with the buyer.

DDP Delivered Duty Paid

Seller carries everything through to your door, duty and tax included. Highest quoted price, least buyer workload.

Two things worth flagging. Under CIF and CIP the seller is obliged to buy cargo insurance and pay the premium; under every other term insurance is optional, and we recommend buyers arrange their own cover so a loss or damage in transit is recoverable. And this table is a working summary for planning purposes — the binding definitions are the ones published by the International Chamber of Commerce in the Incoterms® rules, so confirm the exact term wording in your sales contract before you ship.

Price Trend — Malaysia

Historical freight rates from China to Malaysia for 10 KG shipments. Data sourced from live carrier price feeds.

China to Malaysia — Shipping Reference Data

Reference figures that shape cost and transit on the China-Malaysia route:

Main sea gateways	the main commercial seaport
Destination customs authority	the national customs authority
De-minimis / duty-free threshold	varies by country
Import tax & duty regime	Import duty and local tax apply; rates vary by commodity
Local currency	USD
Typical port/airport dwell time	4-10 days
Peak / busy season	Sep-Nov
Conformity & certification	Confirm local conformity and labelling rules per HS code
Main air gateways	the primary international airport

Thresholds and duty bands are buyer-planning references, not formal customs rulings — confirm the exact HS-code rate for your goods before shipping.

E-Commerce Freight

E-Commerce Small Batch Shipping

The 10 KG range is typical for small e-commerce restock orders and initial trial shipments. Air freight is the standard choice here — it offers the best balance of cost and speed, and most DDP air channels accept shipments from 21 KG upward. This weight falls into the LCL (Less-than-Container-Load) air category.

- Standard minimum for air freight DDP channels (most require 21 KG+)
- Common for: phone cases, accessories, clothing, cosmetics
- Amazon FBA replenishment orders at this weight use air for speed
- Declare accurate HS codes to avoid customs delays in Malaysia

Which Shipping Method is Best for 10 KG?

Recommended

Air Freight

Transit: 5-10 business days

Best at: Under 300 KG, time-sensitive cargo

Recommended

Sea Freight

Transit: 25-45 calendar days

Best at: Over 100 KG, non-urgent cargo

Not cost-effective

Rail Freight

Transit: 18-28 calendar days

Best at: Europe destinations over 50 KG

Europe only

Transit Times — China to Malaysia

Method	Transit Time	Notes
Air Freight DDP	5-10 business days	From China warehouse to Malaysia door
Express Courier	3-7 business days	DHL/FedEx/UPS door-to-door, good option

What Affects the Shipping Cost to Malaysia?

- Actual vs. volumetric weight — carriers charge whichever is higher ($L \times W \times H \div 6000$ for air)
- Cargo type surcharge — batteries, liquids, and branded goods carry additional fees

- Peak season surcharges — Chinese New Year (Jan/Feb) and Golden Week (Oct) add 15–30%
- Destination area — Malaysia may have remote area surcharges for certain postal codes
- Declared value — customs duties are calculated on CIF value

Customs & Documentation for Malaysia

- De minimis threshold — shipments below local tax threshold may clear duty-free
- Required documents: commercial invoice, packing list, and accurate HS codes
- DDP service includes all import duties — you pay one total price with no surprises
- Battery and liquid goods require additional certification documents

Frequently Asked Questions

How much does it cost to ship from China to Malaysia?

Current rates for shipping from China to Malaysia start at USD 950.00/KG via Sea FCL Port-to-Port (Spot). For 10 KG, the estimated total is approximately USD 950, duty included. Final landed cost depends on the Import duty and local tax apply; rates vary by commodity applied by the national customs authority.

What duties and taxes apply when importing into Malaysia?

Imports into Malaysia are assessed by the national customs authority. The applicable regime is: Import duty and local tax apply; rates vary by commodity. The duty-free / de-minimis position is varies by country. Under our DDP service these charges are pre-paid and included in the per-KG price, so there is nothing to settle on arrival.

How long does shipping from China to Malaysia take?

Door-to-door transit to Malaysia: air freight 5–10 business days, sea LCL 30–50 days, sea FCL 28–45 days. On arrival, allow roughly 4–10 days of clearance/dwell at the gateway. All times include customs clearance under DDP.

What documents are required for customs clearance in Malaysia?

the national customs authority typically requires: (1) commercial invoice with HS codes and declared value; (2) packing list with weights and dimensions; (3) bill of lading or air waybill; (4) certificate of origin (may lower duty); and (5) any product-specific certification (Confirm local conformity and labelling rules per HS code). Under DDP we prepare and file these for you.

When is the busy season for shipping to Malaysia?

Capacity to Malaysia tightens around Sep–Nov, on top of the China-side surcharge windows of Chinese New Year (Jan/Feb) and Golden Week (early Oct). Booking 1–2 weeks earlier during these windows protects both space and rate.

Can I track my shipment from China to Malaysia?

Yes. Air shipments to Malaysia get an air waybill (AWB) trackable within 24 hours of departure; sea shipments are tracked by bill-of-lading through the carrier portal. We push status at key milestones: departure, arrival at the gateway, clearance by the national customs authority, and final delivery.

What is DDP shipping to Malaysia and what does it include?

DDP (Delivered Duty Paid) to Malaysia means one all-inclusive price covering freight, the duty/tax due to the national customs authority, and last-mile delivery to your door. The varies by country de-minimis position is handled for you, and there are no surprise charges at destination.

How is chargeable weight calculated for Malaysia shipments?

We compare actual gross weight against volumetric weight ($L \times W \times H \div 6000$ for air) and charge whichever is greater, rounded up to the next kilogram. For 10 KG this matters most when cargo is light but bulky — consolidating cartons can drop you into a cheaper bracket.

Inland Delivery Coverage — Malaysia

We deliver beyond the arrival gateway. Each city below has its own destination guide covering the gateway it clears through, typical inland transit time and the local customs picture.

Note — these are reference guides, not quotes. The city pages describe routing, gateways and clearance for each destination. They do not carry rate tables. For pricing to any city listed here, use the rate table on this page or ask us for a quote.
