Trade Terms Explained — Who Pays for What

The rate above is quoted on one specific trade term. Change the term and you change how much of the journey to Peru is already inside the price. The table below maps the eleven common Incoterms® against the twelve cost stages of a door-to-door shipment, so you can see exactly where our responsibility ends and yours begins.

- **Seller** — Cost and arrangement sit with the seller / shipper.
- **Buyer** — Cost and arrangement sit with the buyer / consignee.
- **Negotiable** — Not fixed by the rule — agree it in the contract.

EXW Ex Works

Buyer takes over at the seller's door and carries every cost from there. Lowest quoted price, highest buyer workload.

FCA Free Carrier

Seller clears the goods for export and hands them to the carrier the buyer nominated.

FAS Free Alongside Ship

Sea and inland waterway only. Seller delivers alongside the vessel; loading is on the buyer.

FOB Free On Board

Sea and inland waterway only. Risk passes once the goods are on board. The most common buying term.

CFR Cost and Freight

Seller pays the main carriage but carries no insurance obligation; risk still passes on loading.

CIF Cost, Insurance and Freight

As CFR, plus the seller must buy and pay for cargo insurance (minimum cover unless you agree more).

CPT Carriage Paid To

Any mode. Seller pays carriage through to the named destination; insurance is not obligatory.

CIP Carriage and Insurance Paid

As CPT, plus the seller must insure the cargo through to the named destination.

DAT Delivered At Terminal (DPU)

Seller delivers unloaded at the named terminal. Renamed DPU (Delivered at Place Unloaded) in Incoterms® 2020.

DAP Delivered At Place

Seller delivers to your address ready for unloading; import clearance and duty stay with the buyer.

DDP Delivered Duty Paid

Seller carries everything through to your door, duty and tax included. Highest quoted price, least buyer workload.

Two things worth flagging. Under CIF and CIP the seller is obliged to buy cargo insurance and pay the premium; under every other term insurance is optional, and we recommend buyers arrange their own cover so a loss or damage in transit is recoverable. And this table is a working summary for planning purposes — the binding definitions are the ones published by the International Chamber of Commerce in the Incoterms® rules, so confirm the exact term wording in your sales contract before you ship.

Who Ships This Weight?

Shipments of 1 KG or under are most commonly used for product samples, quality inspection requests, documents, and single-unit e-commerce orders. At this weight range, express air freight is almost always the most cost-effective option — sea freight minimum charges would make it uneconomical.

- Ideal for Alibaba sample orders before bulk purchasing
- Commonly used by Shopify/WooCommerce stores for test orders
- FedEx, DHL, and UPS express services available at this weight
- Declared value under USD 800 may qualify for de minimis in the US

- FDA Prior Notice required for food, supplements, and certain health products
- FCC certification required for electronic devices with radio frequency

Frequently Asked Questions

How much does it cost to ship from China to Peru?

Current rates for shipping from China to Peru start at USD 6,300.00/KG via Sea FCL Port-to-Port (Spot). For 1 KG, the estimated total is approximately USD 6,300, duty included. Final landed cost depends on the Import duty and local VAT/GST apply; rates vary widely applied by the national customs authority.

What duties and taxes apply when importing into Peru?

Imports into Peru are assessed by the national customs authority. The applicable regime is: Import duty and local VAT/GST apply; rates vary widely. The duty-free / de-minimis position is varies by country (often low). Under our DDP service these charges are pre-paid and included in the per-KG price, so there is nothing to settle on arrival.

Can I track my shipment from China to Peru?

Yes. Air shipments to Peru get an air waybill (AWB) trackable within 24 hours of departure; sea shipments are tracked by bill-of-lading through the carrier portal. We push status at key milestones: departure, arrival at the gateway, clearance by the national customs authority, and final delivery.

How long does shipping from China to Peru take?

Door-to-door transit to Peru: air freight 5–10 business days, sea LCL 30–50 days, sea FCL 28–45 days. On arrival, allow roughly 4–10 days of clearance/dwell at the gateway. All times include customs clearance under DDP.

When is the busy season for shipping to Peru?

Capacity to Peru tightens around Sep–Nov, on top of the China-side surcharge windows of Chinese New Year (Jan/Feb) and Golden Week (early Oct). Booking 1–2 weeks earlier during these windows protects both space and rate.

What is the minimum shipment size for shipping to Peru?

Minimums to Peru vary by channel: air DDP from about 21 KG (some from 12 KG), sea LCL from roughly 1 CBM, and express courier for single parcels. Below 21 KG, express is usually the most economical way into Peru.

How is chargeable weight calculated for Peru shipments?

We compare actual gross weight against volumetric weight ($L \times W \times H \div 6000$ for air) and charge whichever is greater, rounded up to the next kilogram. For 1 KG this matters most when cargo is light but bulky — consolidating cartons can drop you into a cheaper bracket.

In what currency are rates to Peru quoted and paid?

Freight to Peru is quoted and invoiced in USD; the local currency on the destination side is USD. Payment is typically due before departure (T/T or PayPal), and because it's DDP you settle the full landed cost once — no destination collect charges.
