Cost to Ship 300KG from China to Philippines

Shipping 300KG from China to Philippines costs approximately USD 142, based on a published rate of USD 141.8 per container. Treat it as a planning estimate for the freight: what you actually pay depends on the product, its HS code, the declared value and the exchange rate on the day, and duty assessed by the national customs authority is quoted separately. The real figure can come in above or below this.

Estimated total

USD 142 for 300KG

Billed as

1 container at USD 141.8 per container

By sea

USD 141.8 per container, 25-45 days

Customs authority

the national customs authority

Indicative planning references only, not a quotation. Actual cost depends on the product and its HS code, chargeable weight, declared value, destination duty and tax and the exchange rate on the day, and can be higher or lower.

How these prices are calculated — chargeable weight

Freight is not billed on the number on your bathroom scale. It is billed on **chargeable weight**: the greater of actual gross weight and volumetric weight, where volumetric weight is `L × W × H (cm) ÷ 6000`. Denser cargo pays on its weight; light bulky cargo pays on the space it occupies. Whichever is higher is the one you pay — never the lower.

One cubic metre = 167 kg. That is 1,000,000 cm³ ÷ 6000, the same divisor used for the volumetric check, so both sides of this page agree with each other.

Freight only. These are published freight rates. Duty, tax and customs charges at destination are not a fixed number we can print: they follow your product's HS code, its declared value and the exchange rate applied on the day of entry, so they are confirmed against your actual goods and quoted separately.

Indicative only — the real price can be higher or lower. Nothing on this page is a quotation or a commitment. What you finally pay depends on what the product is, how it is packed, the chargeable weight, the declared value, the destination duty position and the exchange rate at the time. Send the product details, weight and dimensions and we will price your specific shipment.

' + '

Check digit valid. ' + who + '

' + '

Track on ' + esc(target.name) + '

' + ' ' + '

' + '

' + (alts ? '

No result there? These free lookups cover the same box from different data sources:

' + alts + '

' : '') + '

'; /* Copy the number so the carrier's own search box is one paste away. Deliberately not a deep link: these carrier sites are SPAs whose query parameters change without notice, and a link that quietly stops prefilling looks like a broken tracker. */ var note = box.querySelector('[data-copy]'); if (navigator.clipboard && navigator.clipboard.writeText) { navigator.clipboard.writeText(res.num).then(function () { note.textContent = res.num + ' copied — paste it into the tracking box that opens.'; }, function () { note.textContent = 'Copy ' + res.num + ' and paste it into the tracking box that opens.'; }); } else { note.textContent = 'Copy ' + res.num + ' and paste it into the tracking box that opens.'; } } function wire(root) { var input = root.querySelector('.cof-ot-input'); var btn = root.querySelector('.cof-ot-btn'); var box = root.querySelector('.cof-ot-out'); if (!input || !btn || !box) return; function go() { var num = normalize(input.value); if (!num) { input.focus(); return; } render(box, analyze(num)); } btn.addEventListener('click', go); input.addEventListener('keydown', function (e) { if (e.key === 'Enter') { e.preventDefault(); go(); } }); } function init() { var nodes = document.querySelectorAll('.cof-ot'); for (var i = 0; i < nodes.length; i++) { wire(nodes[i]); } } if (document.readyState === 'loading') { document.addEventListener('DOMContentLoaded', init); } else { init(); } })();

Track a container to Philippines

Ocean cargo is tracked by container number rather than by a parcel barcode. Enter yours below: we validate the number, identify the line that owns the prefix, and send you to that line's own tracking page.

Container number

A container number is four letters and seven digits, for example MSKU6090510. The last digit is a check digit, so a typo can be caught here rather than by an empty result on the carrier's site. We validate it in your browser — the number is not sent to us or to anyone else.

Full Weight-Tier Rate Cards

Detailed per-weight pricing for every active route from China to Philippines. Each tier reflects the published rate at that exact weight — useful for accurate budgeting at common shipment sizes.

⚖ Cargo Weight (KG)

Enter the actual gross weight of your shipment in kilograms. If you're unsure, fill in the volume fields below and we'll calculate it for you.

Or enter volume (cm) — volumetric weight ÷6000

× ×

Non-integers rounded up. Larger of actual vs volumetric is used.

Number of Boxes

Total chargeable weight = weight per box × number of boxes.

⚠ When you have not filled in the volume information, our prices may be inaccurate.

Trade Terms Explained — Who Pays for What

The rate above is quoted on one specific trade term. Change the term and you change how much of the journey to Philippines is already inside the price. The table below maps the eleven common Incoterms® against the twelve cost stages of a door-to-door shipment, so you can see exactly where our responsibility ends and yours begins.

Seller — Cost and arrangement sit with the seller / shipper.

Buyer — Cost and arrangement sit with the buyer / consignee.

Negotiable — Not fixed by the rule — agree it in the contract.

Term	1 Loading on truck	2 Export customs declaration	3 Carriage to port of export	4 Unloading at port of export	5 Loading on vessel / aircraft	6 Main carriage	7 Cargo insurance	8 Unloading at port of import	9 Loading on truck at import	10 Carriage to destination	11 Import customs clearance	12 Import duties & taxes
EXW Ex Works	Buyer	Buyer	Buyer	Buyer	Buyer	Buyer	Buyer	Buyer	Buyer	Buyer	Buyer	Buyer
FCA Free Carrier	Seller	Seller	Buyer	Buyer	Buyer	Buyer	Buyer	Buyer	Buyer	Buyer	Buyer	Buyer
FAS Free Alongside Ship	Seller	Seller	Seller	Seller	Buyer	Buyer	Buyer	Buyer	Buyer	Buyer	Buyer	Buyer
FOB Free On Board	Seller	Seller	Seller	Seller	Seller	Buyer	Buyer	Buyer	Buyer	Buyer	Buyer	Buyer
CFR Cost and Freight	Seller	Seller	Seller	Seller	Seller	Seller	Buyer	Buyer	Buyer	Buyer	Buyer	Buyer
CIF Cost, Insurance and Freight	Seller	Seller	Seller	Seller	Seller	Seller	Seller	Buyer	Buyer	Buyer	Buyer	Buyer

Term	1 Loading on truck	2 Export customs declaration	3 Carriage to port of export	4 Unloading at port of export	5 Loading on vessel / aircraft	6 Main carriage	7 Cargo insurance	8 Unloading at port of import	9 Loading on truck at import	10 Carriage to destination	11 Import customs clearance	12 Import duties & taxes
CPT Carriage Paid To	Seller	Seller	Seller	Seller	Seller	Seller	Negotiable	Seller	Seller	Seller	Buyer	Buyer

DAP Delivered At Place	Seller	Seller	Seller	Seller	Seller	Seller	Negotiable	Seller	Seller	Seller	Buyer	Buyer
DDP Delivered Duty Paid	Seller	Seller	Seller	Seller	Seller	Seller	Negotiable	Seller	Seller	Seller	Seller	Seller

EXW **Ex Works**

Buyer takes over at the seller's door and carries every cost from there. Lowest quoted price, highest buyer workload.

FCA **Free Carrier**

Seller clears the goods for export and hands them to the carrier the buyer nominated.

FAS **Free Alongside Ship**

Sea and inland waterway only. Seller delivers alongside the vessel; loading is on the buyer.

FOB **Free On Board**

Sea and inland waterway only. Risk passes once the goods are on board. The most common buying term.

CFR **Cost and Freight**

Seller pays the main carriage but carries no insurance obligation; risk still passes on loading.

CIF **Cost, Insurance and Freight**

As CFR, plus the seller must buy and pay for cargo insurance (minimum cover unless you agree more).

CPT **Carriage Paid To**

Any mode. Seller pays carriage through to the named destination; insurance is not obligatory.

CIP **Carriage and Insurance Paid**

As CPT, plus the seller must insure the cargo through to the named destination.

DAT **Delivered At Terminal (DPU)**

Seller delivers unloaded at the named terminal. Renamed DPU (Delivered at Place Unloaded) in Incoterms® 2020.

DAP **Delivered At Place**

Seller delivers to your address ready for unloading; import clearance and duty stay with the buyer.

DDP **Delivered Duty Paid**

Seller carries everything through to your door, duty and tax included. Highest quoted price, least buyer workload.

Two things worth flagging. Under CIF and CIP the seller is obliged to buy cargo insurance and pay the premium; under every other term insurance is optional, and we recommend buyers arrange their own cover so a loss or damage in transit is recoverable. And this table is a working summary for planning purposes — the binding definitions are the ones published by the International Chamber of Commerce in the Incoterms® rules, so confirm the exact term wording in your sales contract before you ship.

Price Trend — Philippines

Historical freight rates from China to Philippines for 300 KG shipments. Data sourced from live carrier price feeds.

China to Philippines — Shipping Reference Data

Country-specific logistics anchors for shipments arriving in Philippines:

Main sea gateways	the main commercial seaport
Destination customs authority	the national customs authority
De-minimis / duty-free threshold	varies by country
Import tax & duty regime	Import duty and local tax apply; rates vary by commodity
Local currency	USD
Typical port/airport dwell time	4–10 days
Peak / busy season	Sep–Nov
Conformity & certification	Confirm local conformity and labeling rules per HS code
Main air gateways	the primary international airport

Thresholds and duty bands are buyer-planning references, not formal customs rulings — confirm the exact HS-code rate for your goods before shipping.

Bulk Commercial Freight

Shipping 300 KG from China to Philippines is firmly in bulk commercial freight territory. At this volume, sea freight (FCL or LCL) and air charter rates become significantly more competitive. Most importers at this weight range use scheduled sea freight for regular orders and air freight only for urgent replenishments.

- Sea freight FCL (full container) may be cost-effective above 5 CBM
- LCL sea freight rates are quoted per CBM at this range
- Expect customs examination — prepare full documentation

Insurance recommended for shipments above USD 5,000 value

Free 3D Loading Tools

Shipping to Philippines by air or sea? Plan cartons and container loading in 3D before requesting a quote.

3D Carton Packing Calculator

Check how many units truly fit per carton for this Philippines shipment: the 3D packing tool computes layers, rotation, and protection gaps from your exact product size.

Which Shipping Method is Best for 300 KG?

✈

Air Freight

Transit: 5–10 business days

Best at: Under 300 KG, time-sensitive cargo

Viable

Recommended

Sea Freight

Transit: 25–45 calendar days

Best at: Over 100 KG, non-urgent cargo

Recommended

Rail Freight

Transit: 18–28 calendar days

Best at: Europe destinations over 50 KG

Europe only

Transit Times — China to Philippines

Method	Transit Time	Notes
Sea Freight LCL	30–50 calendar days	Shared container to Philippines port + delivery
Sea Freight FCL	28–45 calendar days	Full container to Philippines port + delivery
Express Courier	3–7 business days	DHL/FedEx/UPS door-to-door, high cost for this weight

What Affects the Shipping Cost to Philippines?

- Actual vs. volumetric weight — carriers charge whichever is higher (L×W×H÷6000 for air)
- Cargo type surcharge — batteries, liquids, and branded goods carry additional fees
- Peak season surcharges — Chinese New Year (Jan/Feb) and Golden Week (Oct) add 15–30%
- Destination area — Philippines may have remote area surcharges for certain postal codes
- Declared value — customs duties are calculated on CIF value

Customs & Documentation for Philippines

- De minimis threshold — shipments below local tax threshold may clear duty-free
- Required documents: commercial invoice, packing list, and accurate HS codes
- DDP service includes all import duties — you pay one total price with no surprises
- Battery and liquid goods require additional certification documents

Where these Philippines duty figures come from

We publish these figures so you can budget, but the assessment that binds is the one **Philippine Bureau of Customs** ↗ makes on your declaration. Where a shipment is large enough that a percentage point matters, check their current tariff guidance rather than ours.

Classification drives everything downstream: the same carton can attract very different duty depending on the heading it lands in, and the structure those headings come from is **the World Customs Organization Harmonized System** ↗. If your product sits near a boundary between two headings, resolve it before shipping rather than at the border.

For ocean cargo, restricted commodities move under **the IMO's IMDG Code** ↗, and the container has to be declared and stowed accordingly. Batteries, flammables and corrosives all have a compliant ocean path; what causes rolled bookings is finding out about them after the container is packed.

If this is your first shipment into Philippines, the **Philippines Country Commercial Guide** ↗ covers the practical import environment in more depth than a rate page reasonably can, and it is written by a party with no stake in your booking.

Frequently Asked Questions

How much does it cost to ship from China to Philippines? —

Current rates for shipping from China to Philippines start at USD 141.76/container via Sea FCL Port-to-Port (Spot). For 300 KG, the estimated total is approximately USD 142, duty included. Final landed cost depends on the Import duty and local tax apply; rates vary by commodity applied by the national customs authority.

What duties and taxes apply when importing into Philippines? —

Imports into Philippines are assessed by the national customs authority. The applicable regime is: Import duty and local tax apply; rates vary by commodity. The duty-free / de-minimis position is varies by country. Under our DDP service these charges are pre-paid and included in the per-KG price, so there is nothing to settle on arrival.

Can I track my shipment from China to Philippines? —

Yes. Air shipments to Philippines get an air waybill (AWB) trackable within 24 hours of departure; sea shipments are tracked by bill-of-lading through the carrier portal. We push status at key milestones: departure, arrival at the gateway, clearance by the national customs authority, and final delivery.

In what currency are rates to Philippines quoted and paid? —

Freight to Philippines is quoted and invoiced in USD; the local currency on the destination side is USD. Payment is typically due before departure (T/T or PayPal), and because it's DDP you settle the full landed cost once — no destination collect charges.

Which ports and airports handle China shipments to Philippines? —

Sea freight to Philippines typically routes through the main commercial seaport, while air freight clears via the primary international airport. We pick the gateway with the best onward delivery time to your final address and price it into the DDP rate.

What certifications are required to import into Philippines? —

For regulated goods entering Philippines, plan for: Confirm local conformity and labeling rules per HS code. Missing conformity paperwork is the most common cause of clearance holds with the national customs authority, so confirm requirements for your HS code before the cargo leaves China.

What is the minimum shipment size for shipping to Philippines? —

Minimums to Philippines vary by channel: air DDP from about 21 KG (some from 12 KG), sea LCL from roughly 1 CBM, and express courier for single parcels. Below 21 KG, express is usually the most economical way into Philippines.

How is chargeable weight calculated? —

Chargeable weight is the greater of actual gross weight and volumetric weight, where volumetric weight is L × W × H in centimetres divided by 6000. One cubic metre therefore equals 167 kg. If a consignment weighs 300 kg but measures out to only 200 kg volumetric, it is charged on the 300 kg — the higher of the two always wins.

Watch: how this shipment works end to end

The rates above answer the cost question. This covers the mechanics — useful if you have not shipped to Philippines before and are still working out how to structure the order.

Inland Delivery Coverage — Philippines

We deliver beyond the arrival gateway. Each city below has its own destination guide covering the gateway it clears through, typical inland transit time and the local customs picture.

Note — these are reference guides, not quotes. The city pages describe routing, gateways and clearance for each destination. They do not carry rate tables. For pricing to any city listed here, use the rate table on this page or ask us for a quote.

⚡

Answer these and you get a real price, not a range.

These are the exact figures a carrier needs before it will quote. Fill them in once and we can price your cargo the same day — leave them out and we have to come back and ask, which is what turns an hour into a week.

✅

Got it — your enquiry is in.

A freight specialist is looking at it now. You will have a price by email within one working day.

Send it on WhatsApp or email it to us instead
