EXW Ex Works

Buyer takes over at the seller's door and carries every cost from there. Lowest quoted price, highest buyer workload.

FCA Free Carrier

Seller clears the goods for export and hands them to the carrier the buyer nominated.

FAS Free Alongside Ship

Sea and inland waterway only. Seller delivers alongside the vessel; loading is on the buyer.

FOB Free On Board

Sea and inland waterway only. Risk passes once the goods are on board. The most common buying term.

CFR Cost and Freight

Seller pays the main carriage but carries no insurance obligation; risk still passes on loading.

CIF Cost, Insurance and Freight

As CFR, plus the seller must buy and pay for cargo insurance (minimum cover unless you agree more).

CPT Carriage Paid To

Any mode. Seller pays carriage through to the named destination; insurance is not obligatory.

CIP Carriage and Insurance Paid

As CPT, plus the seller must insure the cargo through to the named destination.

DAT Delivered At Terminal (DPU)

Seller delivers unloaded at the named terminal. Renamed DPU (Delivered at Place Unloaded) in Incoterms® 2020.

DAP Delivered At Place

Seller delivers to your address ready for unloading; import clearance and duty stay with the buyer.

DDP Delivered Duty Paid

Seller carries everything through to your door, duty and tax included. Highest quoted price, least buyer workload.

Two things worth flagging. Under CIF and CIP the seller is obliged to buy cargo insurance and pay the premium; under every other term insurance is optional, and we recommend buyers arrange their own cover so a loss or damage in transit is recoverable. And this table is a working summary for planning purposes — the binding definitions are the ones published by the International Chamber of Commerce in the Incoterms® rules, so confirm the exact term wording in your sales contract before you ship.

How much does it cost to ship from China to Vietnam?

Current rates for shipping from China to Vietnam start at USD 170.00/KG via Sea FCL Port-to-Port (Spot). For 21 KG, the estimated total is approximately USD 170, duty included. Final landed cost depends on the Import duty and local tax apply; rates vary by commodity applied by the national customs authority.

What duties and taxes apply when importing into Vietnam?

Imports into Vietnam are assessed by the national customs authority. The applicable regime is: Import duty and local tax apply; rates vary by commodity. The duty-free / de-minimis position is varies by country. Under our DDP service these charges are pre-paid and included in the per-KG price, so there is nothing to settle on arrival.

How long does shipping from China to Vietnam take?

Door-to-door transit to Vietnam: air freight 5–10 business days, sea LCL 30–50 days, sea FCL 28–45 days. On arrival, allow roughly 4–10 days of clearance/dwell at the gateway. All times include customs clearance under DDP.

In what currency are rates to Vietnam quoted and paid?

Yes. Air shipments to Vietnam get an air waybill (AWB) trackable within 24 hours of departure; sea shipments are tracked by bill-of-lading through the carrier portal. We push status at key milestones: departure, arrival at the gateway, clearance by the national customs authority, and final delivery.

What certifications are required to import into Vietnam?

For regulated goods entering Vietnam, plan for: Confirm local conformity and labelling rules per HS code. Missing conformity paperwork is the most common cause of clearance holds with the national customs authority, so confirm requirements for your HS code before the cargo leaves China.

What documents are required for customs clearance in Vietnam?

the national customs authority typically requires: (1) commercial invoice with HS codes and declared value; (2) packing list with weights and dimensions; (3) bill of lading or air waybill; (4) certificate of origin (may lower duty); and (5) any product-specific certification (Confirm local conformity and labelling rules per HS code). Under DDP we prepare and file these for you.

What is the minimum shipment size for shipping to Vietnam?

Minimums to Vietnam vary by channel: air DDP from about 21 KG (some from 12 KG), sea LCL from roughly 1 CBM, and express courier for single parcels. Below 21 KG, express is usually the most economical way into Vietnam.
