Trade Terms Explained — Who Pays for What

The rate above is quoted on one specific trade term. Change the term and you change how much of the journey to Indonesia is already inside the price. The table below maps the eleven common Incoterms® against the twelve cost stages of a door-to-door shipment, so you can see exactly where our responsibility ends and yours begins.

- **Seller** — Cost and arrangement sit with the seller / shipper.
- **Buyer** — Cost and arrangement sit with the buyer / consignee.
- **Negotiable** — Not fixed by the rule — agree it in the contract.

EXW Ex Works

Buyer takes over at the seller's door and carries every cost from there. Lowest quoted price, highest buyer workload.

FCA Free Carrier

Seller clears the goods for export and hands them to the carrier the buyer nominated.

FAS Free Alongside Ship

Sea and inland waterway only. Seller delivers alongside the vessel; loading is on the buyer.

FOB Free On Board

Sea and inland waterway only. Risk passes once the goods are on board. The most common buying term.

CFR Cost and Freight

Seller pays the main carriage but carries no insurance obligation; risk still passes on loading.

CIF Cost, Insurance and Freight

As CFR, plus the seller must buy and pay for cargo insurance (minimum cover unless you agree more).

CPT Carriage Paid To

Any mode. Seller pays carriage through to the named destination; insurance is not obligatory.

CIP Carriage and Insurance Paid

As CPT, plus the seller must insure the cargo through to the named destination.

DAT Delivered At Terminal (DPU)

Seller delivers unloaded at the named terminal. Renamed DPU (Delivered at Place Unloaded) in Incoterms® 2020.

DAP Delivered At Place

Seller delivers to your address ready for unloading; import clearance and duty stay with the buyer.

DDP Delivered Duty Paid

Seller carries everything through to your door, duty and tax included. Highest quoted price, least buyer workload.

Two things worth flagging. Under CIF and CIP the seller is obliged to buy cargo insurance and pay the premium; under every other term insurance is optional, and we recommend buyers arrange their own cover so a loss or damage in transit is recoverable. And this table is a working summary for planning purposes — the binding definitions are the ones published by the International Chamber of Commerce in the Incoterms® rules, so confirm the exact term wording in your sales contract before you ship.

i Additional Information

What the Rate Covers

The published figure is **ocean freight, port to port**. It does not include origin haulage to Nansha, origin customs declaration, destination customs clearance, duty and VAT, or destination delivery — those are quoted separately once the commodity and Incoterm are confirmed.

- Basis: one full container, 20'GP (20' standard container) / 40'HQ (40' high-cube container)
- Currency: USD, per container (not per KG or per CBM)
- Rate validity follows the carrier's sheet — spot allocations move week to week, so reconfirm before the cut-off
- Dangerous goods, out-of-gauge and reefer cargo are priced separately

Booking Notes

- Container release and cut-off dates are tied to the specific ETD shown above
- Demurrage and detention start once the destination free time expires
- Space on discounted spot allocations is limited; the rate holds only while the allocation lasts.

☐ Indonesia Sea Freight Checklist

- Photograph the container number, seal, and loading process for insurance evidence.
- Reserve loading space 5-7 days before the sailing cut-off for this route during peak season.
- Confirm whether your Indonesia rate is per CBM or per container before comparing quotes.
- Declare accurate gross weight — VGM misdeclaration delays vessels and triggers fines.

□ Frequently Asked Questions

How long does Sea FCL Port-to-Port (Spot) from China to Indonesia take?

Sea freight on this route runs about 25–45 calendar days door-to-door, plus roughly 4–10 days of clearance/dwell once it reaches the gateway. All times include customs clearance under DDP terms.

What duties and taxes apply when importing into Indonesia?

Clearance is handled by Directorate General of Customs and Excise (Bea Cukai). The regime is: VAT 11%; duty 0–150%, with a 7.5% flat rate applied to many consumer parcels, plus income-tax prepayment (PPH) of 0.5–10%, with a de-minimis position of USD 3 FOB — one of the lowest thresholds in the world. Under DDP these are pre-paid, so nothing is collected on arrival.

Which ports or airports does this route use into Indonesia?

Sea cargo to Indonesia clears through Tanjung Priok (Jakarta), Tanjung Perak (Surabaya), Belawan (Medan); air freight clears via CGK (Jakarta), SUB (Surabaya), DPS (Denpasar). We route through whichever gateway gives the fastest onward delivery to your address and build it into the DDP price.

What does DDP shipping to Indonesia include on this route?

DDP means one price covering freight, the duty/tax owed to Directorate General of Customs and Excise (Bea Cukai), and last-mile delivery to your door in Indonesia. There are no surprise charges at destination.

When does capacity tighten on the China–Indonesia lane?

Space and rates tighten around Sep–Nov, plus the China-side windows of Chinese New Year (Jan/Feb) and Golden Week (early Oct). Book 1–2 weeks earlier in these periods.

What certification is needed to import into Indonesia?

For regulated goods, plan for: SNI mandatory standard for a long list of products; import licence (API-U/API-P) held by the consignee; Permendag restricted-goods rules for textiles, footwear, electronics and toys. Missing conformity paperwork is the most common clearance hold with Directorate General of Customs and Excise (Bea Cukai), so confirm requirements for your HS code before shipping.
