Trade Terms Explained — Who Pays for What

The rate above is quoted on one specific trade term. Change the term and you change how much of the journey to Japan is already inside the price. The table below maps the eleven common Incoterms® against the twelve cost stages of a door-to-door shipment, so you can see exactly where our responsibility ends and yours begins.

- **Seller** — Cost and arrangement sit with the seller / shipper.
- **Buyer** — Cost and arrangement sit with the buyer / consignee.
- **Negotiable** — Not fixed by the rule — agree it in the contract.

Responsibility for each shipment stage under each Incoterms rule

Term	1 Loading on truck	2 Export customs declaration	3 Carriage to port of export	4 Unloading at port of export	5 Loading on vessel / aircraft	6 Main carriage	7 Cargo insurance	8 Unloading at port of import	9 Loading on truck at import	10 Carriage to destination

EXW Ex Works

Buyer takes over at the seller's door and carries every cost from there. Lowest quoted price, highest buyer workload.

FCA Free Carrier

Seller clears the goods for export and hands them to the carrier the buyer nominated.

FAS Free Alongside Ship

Sea and inland waterway only. Seller delivers alongside the vessel; loading is on the buyer.

FOB Free On Board

Sea and inland waterway only. Risk passes once the goods are on board. The most common buying term.

CFR Cost and Freight

Seller pays the main carriage but carries no insurance obligation; risk still passes on loading.

CIF Cost, Insurance and Freight

As CFR, plus the seller must buy and pay for cargo insurance (minimum cover unless you agree more).

CPT Carriage Paid To

Any mode. Seller pays carriage through to the named destination; insurance is not obligatory.

CIP Carriage and Insurance Paid

As CPT, plus the seller must insure the cargo through to the named destination.

DAT Delivered At Terminal (DPU)

Seller delivers unloaded at the named terminal. Renamed DPU (Delivered at Place Unloaded) in Incoterms® 2020.

DAP Delivered At Place

Seller delivers to your address ready for unloading; import clearance and duty stay with the buyer.

DDP Delivered Duty Paid

Seller carries everything through to your door, duty and tax included. Highest quoted price, least buyer workload.

Two things worth flagging. Under CIF and CIP the seller is obliged to buy cargo insurance and pay the premium; under every other term insurance is optional, and we recommend buyers arrange their own cover so a loss or damage in transit is recoverable. And this table is a working summary for planning purposes — the binding definitions are the ones published by the International Chamber of Commerce in the Incoterms® rules, so confirm the exact term wording in your sales contract before you ship.

Service Details

Nansha → Kobe — Current FCL Container Rate

This page carries our live port-to-port FCL rate from Nansha (🇨🇳) to Kobe, Japan. The figures below are ocean freight for a full container on the Intra-Asia — Japan lane and are refreshed from the carrier rate sheet each time it is reissued.

Rate by Container Type

- **20'GP** — USD 240 all-in ocean freight
- **40'HQ** — USD 440 all-in ocean freight

Sailing Details

- Carrier / NVOCC allocation: STIC
- Next ETD out of Nansha: weekly sailings
- destination free time confirmed at booking
- Routing: per carrier schedule — direct or transshipment as noted on the booking confirmation

Track your shipment

Enter your tracking number below

Powered by 17TRACK — supports 2,000+ carriers worldwide

i Additional Information

What the Rate Covers

The published figure is **ocean freight, port to port**. It does not include origin haulage to Nansha, origin customs declaration, destination customs clearance, duty and VAT, or destination delivery — those are quoted separately once the commodity and Incoterm are confirmed.

- Basis: one full container, 20'GP (20' standard container) / 40'HQ (40' high-cube container)
- Currency: USD, per container (not per KG or per CBM)
- Rate validity follows the carrier's sheet — spot allocations move week to week, so reconfirm before the cut-off
- Dangerous goods, out-of-gauge and reefer cargo are priced separately

Booking Notes

- Container release and cut-off dates are tied to the specific ETD shown above
- Demurrage and detention start once the destination free time expires
- Space on discounted spot allocations is limited; the rate holds only while the allocation lasts.

China to Japan — Shipping Reference Data

Main sea gateways	Tokyo, Yokohama, Osaka
Destination customs authority	Japan Customs (国)
De-minimis / duty-free threshold	JPY 10,000 customs value (some categories excluded)
Import tax & duty regime	Consumption tax 10%; duty 0–15% on most manufactured goods, higher on leather, footwear and food
Local currency	JPY
Typical clearance / dwell time	1–3 days
Peak / busy season	Sep–Nov
Conformity & certification	PSE mark for electrical appliances; Giteki/MIC certification for radio devices; Food Sanitation Act notification for food-contact items

Thresholds and duty bands are buyer-planning references, not formal customs rulings — confirm the exact HS-code rate for your goods before shipping.

Free 3D Loading Tools for This Sea Route

This page covers a Sea freight service from China to Japan. Use the matching tool below to plan your cargo before requesting a quote.

3D Container Loading Planner

Sea freight to Japan prices by CBM or container — plan your 20GP/40GP/40HQ loading in 3D, compare utilization, and see exactly how many cartons fit before you commit to a booking.

[Open Container Planner →](#)

Japan Sea Freight Checklist

- Confirm whether your Japan rate is per CBM or per container before comparing quotes.
- Verify the receiver's customs import capability in Japan for DDP terms before booking.
- Reserve loading space 5-7 days before the sailing cut-off for this route during peak season.
- Declare accurate gross weight — VGM misdeclaration delays vessels and triggers fines.

□ Frequently Asked Questions

How long does Sea FCL Port-to-Port (Spot) from China to Japan take?

Sea freight on this route runs about 25-45 calendar days door-to-door, plus roughly 1-3 days of clearance/dwell once it reaches the gateway. All times include customs clearance under DDP terms.

What duties and taxes apply when importing into Japan?

Clearance is handled by Japan Customs (関税). The regime is: Consumption tax 10%; duty 0-15% on most manufactured goods, higher on leather, footwear and food, with a de-minimis position of JPY 10,000 customs value (some categories excluded). Under DDP these are pre-paid, so nothing is collected on arrival.

Can you ship special cargo (batteries, branded goods) to Japan?

Yes — battery goods by sea follow UN3480/UN3481 rules with an MSDS; we prepare the dangerous-goods paperwork as part of DDP into Tokyo, Yokohama, Osaka. Surcharges apply.

What certification is needed to import into Japan?

For regulated goods, plan for: PSE mark for electrical appliances; Giteki/MIC certification for radio devices; Food Sanitation Act notification for food-contact items. Missing conformity paperwork is the most common clearance hold with Japan Customs (関税), so confirm requirements for your HS code before shipping.

Which ports or airports does this route use into Japan?

Sea cargo to Japan clears through Tokyo, Yokohama, Osaka; air freight clears via NRT (Narita), HND (Haneda), KIX (Osaka Kansai). We route through whichever gateway gives the fastest onward delivery to your address and build it into the DDP price.

How is the shipping cost on this route calculated?

We compare actual gross weight against volumetric weight ($L \times W \times H \div 6000$) and charge the greater, rounded up to the next kilogram, then apply the per-KG rate shown in the table above.
