Trade Terms Explained — Who Pays for What

The rate above is quoted on one specific trade term. Change the term and you change how much of the journey to Chile is already inside the price. The table below maps the eleven common Incoterms® against the twelve cost stages of a door-to-door shipment, so you can see exactly where our responsibility ends and yours begins.

- **Seller** — Cost and arrangement sit with the seller / shipper.
- **Buyer** — Cost and arrangement sit with the buyer / consignee.
- **Negotiable** — Not fixed by the rule — agree it in the contract.

EXW Ex Works

Buyer takes over at the seller's door and carries every cost from there. Lowest quoted price, highest buyer workload.

FCA Free Carrier

Seller clears the goods for export and hands them to the carrier the buyer nominated.

FAS Free Alongside Ship

Sea and inland waterway only. Seller delivers alongside the vessel; loading is on the buyer.

FOB Free On Board

Sea and inland waterway only. Risk passes once the goods are on board. The most common buying term.

CFR Cost and Freight

Seller pays the main carriage but carries no insurance obligation; risk still passes on loading.

CIF Cost, Insurance and Freight

As CFR, plus the seller must buy and pay for cargo insurance (minimum cover unless you agree more).

CPT Carriage Paid To

Any mode. Seller pays carriage through to the named destination; insurance is not obligatory.

CIP Carriage and Insurance Paid

As CPT, plus the seller must insure the cargo through to the named destination.

DAT Delivered At Terminal (DPU)

Seller delivers unloaded at the named terminal. Renamed DPU (Delivered at Place Unloaded) in Incoterms® 2020.

DAP Delivered At Place

Seller delivers to your address ready for unloading; import clearance and duty stay with the buyer.

DDP Delivered Duty Paid

Seller carries everything through to your door, duty and tax included. Highest quoted price, least buyer workload.

Two things worth flagging. Under CIF and CIP the seller is obliged to buy cargo insurance and pay the premium; under every other term insurance is optional, and we recommend buyers arrange their own cover so a loss or damage in transit is recoverable. And this table is a working summary for planning purposes — the binding definitions are the ones published by the International Chamber of Commerce in the Incoterms® rules, so confirm the exact term wording in your sales contract before you ship.

i Additional Information

What the Rate Covers

The published figure is **ocean freight, port to port**. It does not include origin haulage to Ningbo, origin customs declaration, destination customs clearance, duty and VAT, or destination delivery — those are quoted separately once the commodity and Incoterm are confirmed.

- Basis: one full container, 40'HQ (40' high-cube container)
- Currency: USD, per container (not per KG or per CBM)
- Rate validity follows the carrier's sheet — spot allocations move week to week, so reconfirm before the cut-off
- Dangerous goods, out-of-gauge and reefer cargo are priced separately

Booking Notes

- Container release and cut-off dates are tied to the specific ETD shown above
- Demurrage and detention start once the destination free time expires
- Space on discounted spot allocations is limited; the rate holds only while the allocation lasts.

☐ Chile Sea Freight Checklist

- Verify the receiver's customs import capability in Chile for DDP terms before booking.
- Check pallet vs floor-loading: floor loading typically fits 8-12% more cartons per container.
- Ask whether the quote includes destination port charges in Chile or only ocean freight.
- Declare accurate gross weight — VGM misdeclaration delays vessels and triggers fines.

Frequently Asked Questions

How long does Sea FCL Port-to-Port (Spot) from China to Chile take?

Sea freight on this route runs about 25–45 calendar days door-to-door, plus roughly 2–6 days of clearance/dwell once it reaches the gateway. All times include customs clearance under DDP terms.

What duties and taxes apply when importing into Chile?

Clearance is handled by Servicio Nacional de Aduanas de Chile. The regime is: IVA 19%; general duty 6%, but 0% on most goods under the China–Chile free trade agreement with a valid certificate of origin, with a de-minimis position of USD 41 for courier consignments. Under DDP these are pre-paid, so nothing is collected on arrival.

Can you ship special cargo (batteries, branded goods) to Chile?

Yes — battery goods by sea follow UN3480/UN3481 rules with an MSDS; we prepare the dangerous-goods paperwork as part of DDP into San Antonio, Valparaíso, Coronel. Surcharges apply.

In what currency is this route priced and paid?

Freight is quoted and invoiced in USD; the destination-side currency is CLP. Payment is typically due before departure, and DDP means you settle the full landed cost once.

What certification is needed to import into Chile?

For regulated goods, plan for: SEC certification for electrical products; SAG clearance for wood packaging and agricultural goods. Missing conformity paperwork is the most common clearance hold with Servicio Nacional de Aduanas de Chile, so confirm requirements for your HS code before shipping.

What documents are required for customs clearance in Chile?

Servicio Nacional de Aduanas de Chile typically requires a commercial invoice with HS codes, a packing list, the bill of lading/air waybill, a certificate of origin (may lower duty), and any product certification (SEC certification for electrical products; SAG clearance for wood packaging and agricultural goods). We file these under DDP.
